PROTOTYPE SPRINT 1: FEEDBACK

12 year old pupil from primary school

- Cannot understand or read English well enough for what's presented on the Main Page
- Main screen old school, very confusing, nothing is interesting enough to
- Investigate
- Can the main page and profile page be merged into one starting page?

- Colourful but chaos, every site has a different theme
- Back button from Chat moves the Chat into view from the same side as the chat, is that intended?
Consistency through out the app
- Start a Chat and unfriend to close together on the Friends Page
Scared he will accidentally click it
- Private group chat with friends?
Scroll feature in club main page?
- Show online friends

- Why is my own profile picture so big, I know how I look like?
Space not appropriately used
- Friend list names?
Should show the name instead of just pictures
- Subgroups? I am part of a kid's club but not all the club activities are relevant for me because the club is huge
