Grading Assessment TEAM 31

Assignment 1: Grade 5%: max. 50 points

Github Repository created, all team members have access	no repository *0 points*	repository created and max. 2 team members have access *6 points*	repository created and all but one team member have access *8 points*	repository created and all team members have access *10 points*
Team Canvas & Team name	no team canvas in wiki *0 points*	team canvas in wiki, poorly filled out *6 points*	team canvas in wiki, team alignment and kick-off well documented *8 points*	team canvas in wiki, team alignment and kick-off very well documented *10 points*
Research	no research page in wiki *0 points*	incomplete research page in wiki *6 points*	good research, well documented *8 points*	great and informative research page in wiki, very well suited to present your research to the challenge sponsor *10 points*
Interviews with stakeholders	no interviews with stakeholders documented *0 points*	no meaningful interviews documented *6 points*	well done *8 points*	great insights from interviews with stakeholders *10 points*
Open Questions	no open questions section on research page in wiki *0 points*	few (almost trivial) open questions on research page in wiki *6 points*	good open questions, well suited to get more information from the challenge sponsor *8 points*	excellent *10 points*

Total Points	50
Comments	Excellent start. Very well documented research up to this point.

Assignment 2: Grade 2%: max. 20 points

Research the problem	no new research found *0 points*	research documented *6 points*	the problem was well researched *8 points*	Your wiki page shows excellent research in the problem domain. You were able to identify key sources and structure the information that you have obtained very well. *10 points*
Problem statement	no problem statement *0 points*	problem statement is available *6 points*	Your problem statement is understandable and documents your insight. *8 points*	Excellent problem statement *10 points*

Total Points	16
Comments	The problem is researched, but this is not transferred to the problem statement. The statement should be short and nail the problem. It should not detail the scenario or rephrase the broad challenge statement made available. For a problem statement, you need to analyze your research insights and then you must ask yourselves what are the real pain point(s) behind this problem? And you need to take into account the youngsters perspective. What are their pain points that the KJR (or a similar NGO) in its position could offer a solution for? The problem statement should focus on the target audience and present the real problem (= the pain point(s)). Furthermore, a problem statement should not include the solution or indications of it.

Assignment 3: Grade 8%: max. 80 points

Empathy map	no empathy map 0 points	an empathy map is available 6 points	Your empathy map shows a good picture of your stakeholders' gain and pain points. 8 points	Excellent visualization of your challenge opportunities. 10 points
Ideation	ideation not documented 0 points	ideation was documented 6 points	well done 8 points	great, the ideation process is very well documented 10 points
Storyboard	no storyboard 0 points	A storyboard is available in your wiki. 6 points	Your storyboard shows a good scenario benefiting from your idea. 8 points	excellent 10 points
Feedback to storyboard	no feedback to storyboard documented 0 points	You have documented feedback collected using your storyboard. 6 points	You have collected feedback for your storyboard and you have refined your storyboard. 8 points	excellent 10 points
Press Release	no press release 0 points	An imaginary press release is available. 12 points	Your imaginary press release is well written using the guidelines provided in the workshop. 16 points	excellent 20 points
FAQs	no FAQs 0 points	Your wiki shows a short list of FAQs. 12 points	good list of FAQs 16 points	comprehensive list of FAQs, all relevant questions are answered 20 points

Total Points	72
Comments	Great work. Well documented including feedback. The press release should be a flowing text including integrating the elements of the template, rather than using these as headings. See examples of real press releases provided on a link on deep dive. The FAQ has short answers and it should help you to make your idea more concrete by considering different questions that might emerge once the solution is deployed. In this sense, you should not consider your current situation but the future (i.e. after the launch).

	You seem to have access to school teacher and someone near KJR: These are important informants – try to engage them to get you further feedback as you move through with prototyping. Keep up the great work and if possible try to involve more youngsters on the testing of the prototyping.

Assignment 4: Grade 10%: max. 100 points

Digital Prototype	none *0 points*	barely working *12 points*	good release *16 points*	excellent, prototype works smoothly *20 points*
Key Features	none *0 points*	incomplete *6 points*	almost complete *8 points*	working very well *10 points*
Look and Feel	no prototype or very poor user interface *0 points*	difficult to understand *6 points*	well done *8 points*	very well done *10 points*
Wording and communication with the user	hard to understand *0 points*	not very professional *6 points*	easy to follow and to understand, good user experience *8 points*	consistent and clear wording, great user experience *10 points*
Purpose of digital prototype	unclear *0 points*	difficult to see the benefit of the digital prototype *6 points*	good use of prototyping. You have communicated the idea of the challenge contribution well. *8 points*	you are making excellent use of digital prototyping. You use it very well to bring your ideas across. *10 points*
Team work & workflow	hard to tell from issues, project board and wiki *0 points*	incomplete *6 points*	all team members are involved *8 points*	great team work, the entire team is involved, workload seems well balanced, involvement plays to individual strength *10 points*
Documentation in GitHub Issues	none identified *0 points*	incomplete or unclear *6 points*	issues are documented *8 points*	very thorough and concise documentation *10 points*
Wiki page	none *0 points*	incomplete or unclear *12 points*	good for showing to the challenge giver *16 points*	clear, easy to understand, relevant *20 points*

Total Points	88 (out of 100)
Comments	The prototype in sprint 1 is well developed for sprint 1. It is relatively easy to follow, the goal and value proposition are clear and the look and feel is very well done for sprint 1. Overall, Well done! Next step is to get as much feedback as possible, please reach out to any person you have access to in your personal networks that the profile of end-user, but also the profile of another stakeholder you might identify through your business model canvas.

	You wiki page is structured and you use the GitHub issues to manage your team's work. It is key for virtual teams that team members are aligned in their to-dos and track the issues. Please pay attention to the grading scheme of the next assignments. P.s. Please note that the quizzes can be answered by December 8th. Each quiz is 30 points (3%). Hence, 15% (150 points) from your final individual grading comes from the quizzes. You have 3 attempts per quiz to reach maximum points.
